

# Antimony

*Note: Antimony is an alchemical symbol. The origins of the word “alchemy” originates from the Arabic al-kimia referring to the preparation of the lapis – ie the philosopher’s stone. The Arabic “kimia” in term is related to the Coptic khem which refers exoterically to the Nile delta soil but esoterically the primordial First Matter – or acausal matter in my estimation ie chaos or phaos (a Myattian term). This is also where we get today the modern word “chemistry”. Antimony was symbolized by the wolf in alchemy for the animal nature or wild aspects of humanity.*

The 11 Antimonian-Numinous Points of the Sinister-Numen

## **I. Be a wolf in sheep’s clothing. Never show your cards at the poker table.**

Always behave in public as if you are under scrutiny. Likewise do not publicly claim to be a member of the Sinistar-7-Syndicate (S7S) in private nor public unless amongst your own kindred. Do not trust the outer O9A (Omega9Alpha) they have been infiltrated by federal informants – Joshua Caleb Sutter and Jillian Hoy with fanatics dedicated to both of these individuals still. Likewise always assume to be monitored by federal agencies, police, and intelligence agencies. Be smart. TOR, VPN and encryption will only get you so far. If they were the end all be all then how would they have ever shut down the Silkroad?

## **II. Do right by those that do right by you but trust no one not even yourself.**

Honour is a causal abstraction which depends upon time and place as well as an empathetic personal knowing of the person you are being honourable towards. Respect is a more numinous concept as is emulation of a Sinister-Numinous role model such as Grandmaster Anton Long. Respect those who have walked the path before you but always be wary and naturally mistrusting of authority. You shall accept guidance only. And there is no submission even if it means to die in the process. For death before dishonour is our battlecry on the fields of history and we stand defiant and proud. We worship not God but play reverence to the Cosmic Being. Agios o Atazoth! Praise Allah! Hare Krsna!

## **III. Let Lucifer Be Thy Ideal.**

Lucifer is the bringer of light, wisdom, knowledge, gnosis and revolution. Be as our prince of dark numinosity.

## **IV. Sleepers, awake! *Wachet auf, ruft uns die Stimme!***

In the land of the blind only the one-eyed is king.

## **V. Move in silence and violence**

If you must commit an act against society, individual(s), etc. You should assume full responsibility and mutually the S7S will claim no ties to you and unless you are a dishonorable coward you should claim no ties to us. We do not make anyone do anything. Nor do we encourage crime, violence, terror or extremism. We are simply a social club of likeminded individuals and our moral-ethical code is non-

existent due to the principle of individual judgment and anarchic de-centralization and philosophy of nihilism particularly *moral nihilism*.

**VI. Lie if you must but never lie to yourself. The truth is always most beautiful of all no matter how grim.**

No one respects or trusts a liar. Especially it is a grave action of dishonour against yourself to lie and pretend things in your own mind which are untrue. So lie if you must. But never lie to yourself. And a strong individual always prefers the truth no matter how grim it may be and always tells the truth no matter how blunt, offensive or tragic.

**VII. The only limits are what you place upon yourself so seek to always go beyond due limits.**

The only law is the law of individual judgment based on will to either build self-development via trials and ordeals of Nietzschean self-overcoming whether or not these are licit or illicit, anti-social or pro-social and legal or illegal. Heretical, defiant and proud is preferable to status quo, normal, and cowardly. Political correctness is the new *fascism* or more accurately tyranny. Either that or to benefit the collective whole of Nature and the Cosmos itself in accordance with the will of the Cosmic Being and his Earth-bound representative(s). Agios o Lucifer!

**VIII. Having pity and mercy upon your enemies will allow them to like snakes grow more venomous and poison the well.**

**IX. The last glory of life shall be to die in combat for it is only by war the strong are tested in blood and steel and impersonal fate and providence decides the victor.**

**X. Death before dishonour. Never submit no matter how powerful the sworn enemy may be. Under no circumstances surrender. Take your own life instead of facing a humiliating defeat by the enemy but ensure you fight to the bitter end.**

**XI. Never ever under any circumstances snitch or inform on your comrades. Bearing false witness to thy neighbours should net a lynching. You've forfeit your own life by doing so. Settle your disputes with a neutral third party arbitrator. Or one side to represent each individual in question and a third party arbitrator who is respected by all, neutral, impersonal and experienced in these matters to act as judge.**
